"Our cooperation with Gate Television started several years ago and since then we have found that the features of their products have exceeded our expectations, and helped to improve the quality of our company presentation especially to foreign partners. At the same time we have effectively presented our work within the Visteon group in the U.S.A., Germany, France etc."

A handwritten signature in blue ink, appearing to read "Oldřich Rybníkář", written over a faint circular stamp.
